SOFTWARE DEVELOPER

Software developer with experience in sales, social services, and aviation. My diverse background has equipped me with strengths in problem solving and attention to detail that I use to design creative solutions to complex technical problems. I'm excited to work with a company that emphasizes continual learning and innovation in tech.

SKILLS

Ruby, Rails, Vue.js, JavaScript, HTML, CSS, PostgreSQL, Git, GitHub, APIs, Pair-Programming, Testing, Object-Oriented Programming, Bootstrap

EDUCATION

Certificate in Full Stack Web Development | Actualize   **January 2022 - May 2022**

Capstone (Airport Weather App METAR): personally built a web app that allows pilots to track weather conditions at their favorite airports. Built with a Ruby on Rails backend, HTML, CSS and Javascript and integrating three separate APIs, the app allows a user to create a profile, search and save favorite airports, and view current weather conditions.

Bootcamp learning outcomes:
- Learned fundamentals and best practices in full-stack web development in areas of project architecture, backend, frontend, and how to effectively self-teach new technologies
- Generated technical requirements and determined the most effective solutions, created wireframes, designed schema, and researched outside resources
- Built and tested the backend, incorporating external APIs
- Created pages and RESTful routes, made web requests to retrieve data, formatted and styled results, incorporated libraries and themes

Bachelor of Science in History | College of the Ozarks   **December 2020**
GPA: 3.8 / 4.0
